About Us

Nipun, an ISO 9001:2008 certified company, established in 2002, is a multifunctional organization run by group of engineers, is forging ahead with its global connections and diversified interests in IT infrastructure design/deployment, software development and consultancy.

Nipun has an enthusiastic group of engineers with a vision to bring revolution in the trend of technical computations in India. Nipun's strong technical experience and expertise, together with its elite value system, enables Nipun to sustain its position in market today and in future.

Why Nipun ?

- ✔ We offer technical know-how of our work force more than a mere product sale. We are committed in delivering the most cost-effective and reliable solutions to our customers.
- ✔ We identify service not as a commercial agreement, but as a way to provide you to the best of our abilities.
- ✔ We don't deliver a mere solution, but a comprehensive design which will take care of your future networking needs.
- ✔ Nipun will assist in each and every stage of implementation and relation will continue even after the project completion.
- ✔ We work with our clients during Design, Implementation, Operation and Maintenance of network. We also train our clients staff to develop their skills to match the demands of ever changing networking world.

Corporate Facts:

- ✔ 2 patents in process in the field of process automation
- ✔ Cisco certified Premier partner and Advanced Wireless LAN solutions
- ✔ Our technical team is 100% Cisco and Cisco Meraki Certified
- ✔ Over 1000+ enterprise customers across India
- ✔ First of its kind advanced wireless and RFID lab in India
- ✔ First to implement automated driving test track solution in India
- ✔ First to implement Cisco mesh technology in India
- ✔ Implemented largest mesh network in India
- ✔ Partnerships with Major OEM's like Cisco,HP,Dell,NetApp,& Axis
- ✔ First to implement Cisco SDA Solution in Hyderabad
- ✔ Won Cisco Partner Innovation Challenge 2020

Our Vision

To become leading solution provider and system integrator of E2E networking solutions using the component based rapid deployment strategy based on well tested and evaluated methodologies

Our Mission

To build strong and proficient technical team and offer E2E networking solutions as one stop source.

OUR History

01. 2002 - 2004

- › Incorporated
- › Cisco Certified Advanced WLAN Partner

02. 2005 - 2008

- › Implemented First Mesh Network In India.
- › Certified Cisco Premier Partner
- › Won IIMB campus wlan project against tier 1 partners
- › First RFID implementation

03. 2009 - 2011

- › Started Wireless Consultation Services
- › Automation initiative
- › A state of art fully equipped wireless and RFID Lab, first of its kind in India

04. 2012 - 2014

- › First Automated Driver Testing Track implementation in Kerala
- › Entered into IT and Defence Segment
- › Expanded aggressively into IT & ITES verticals

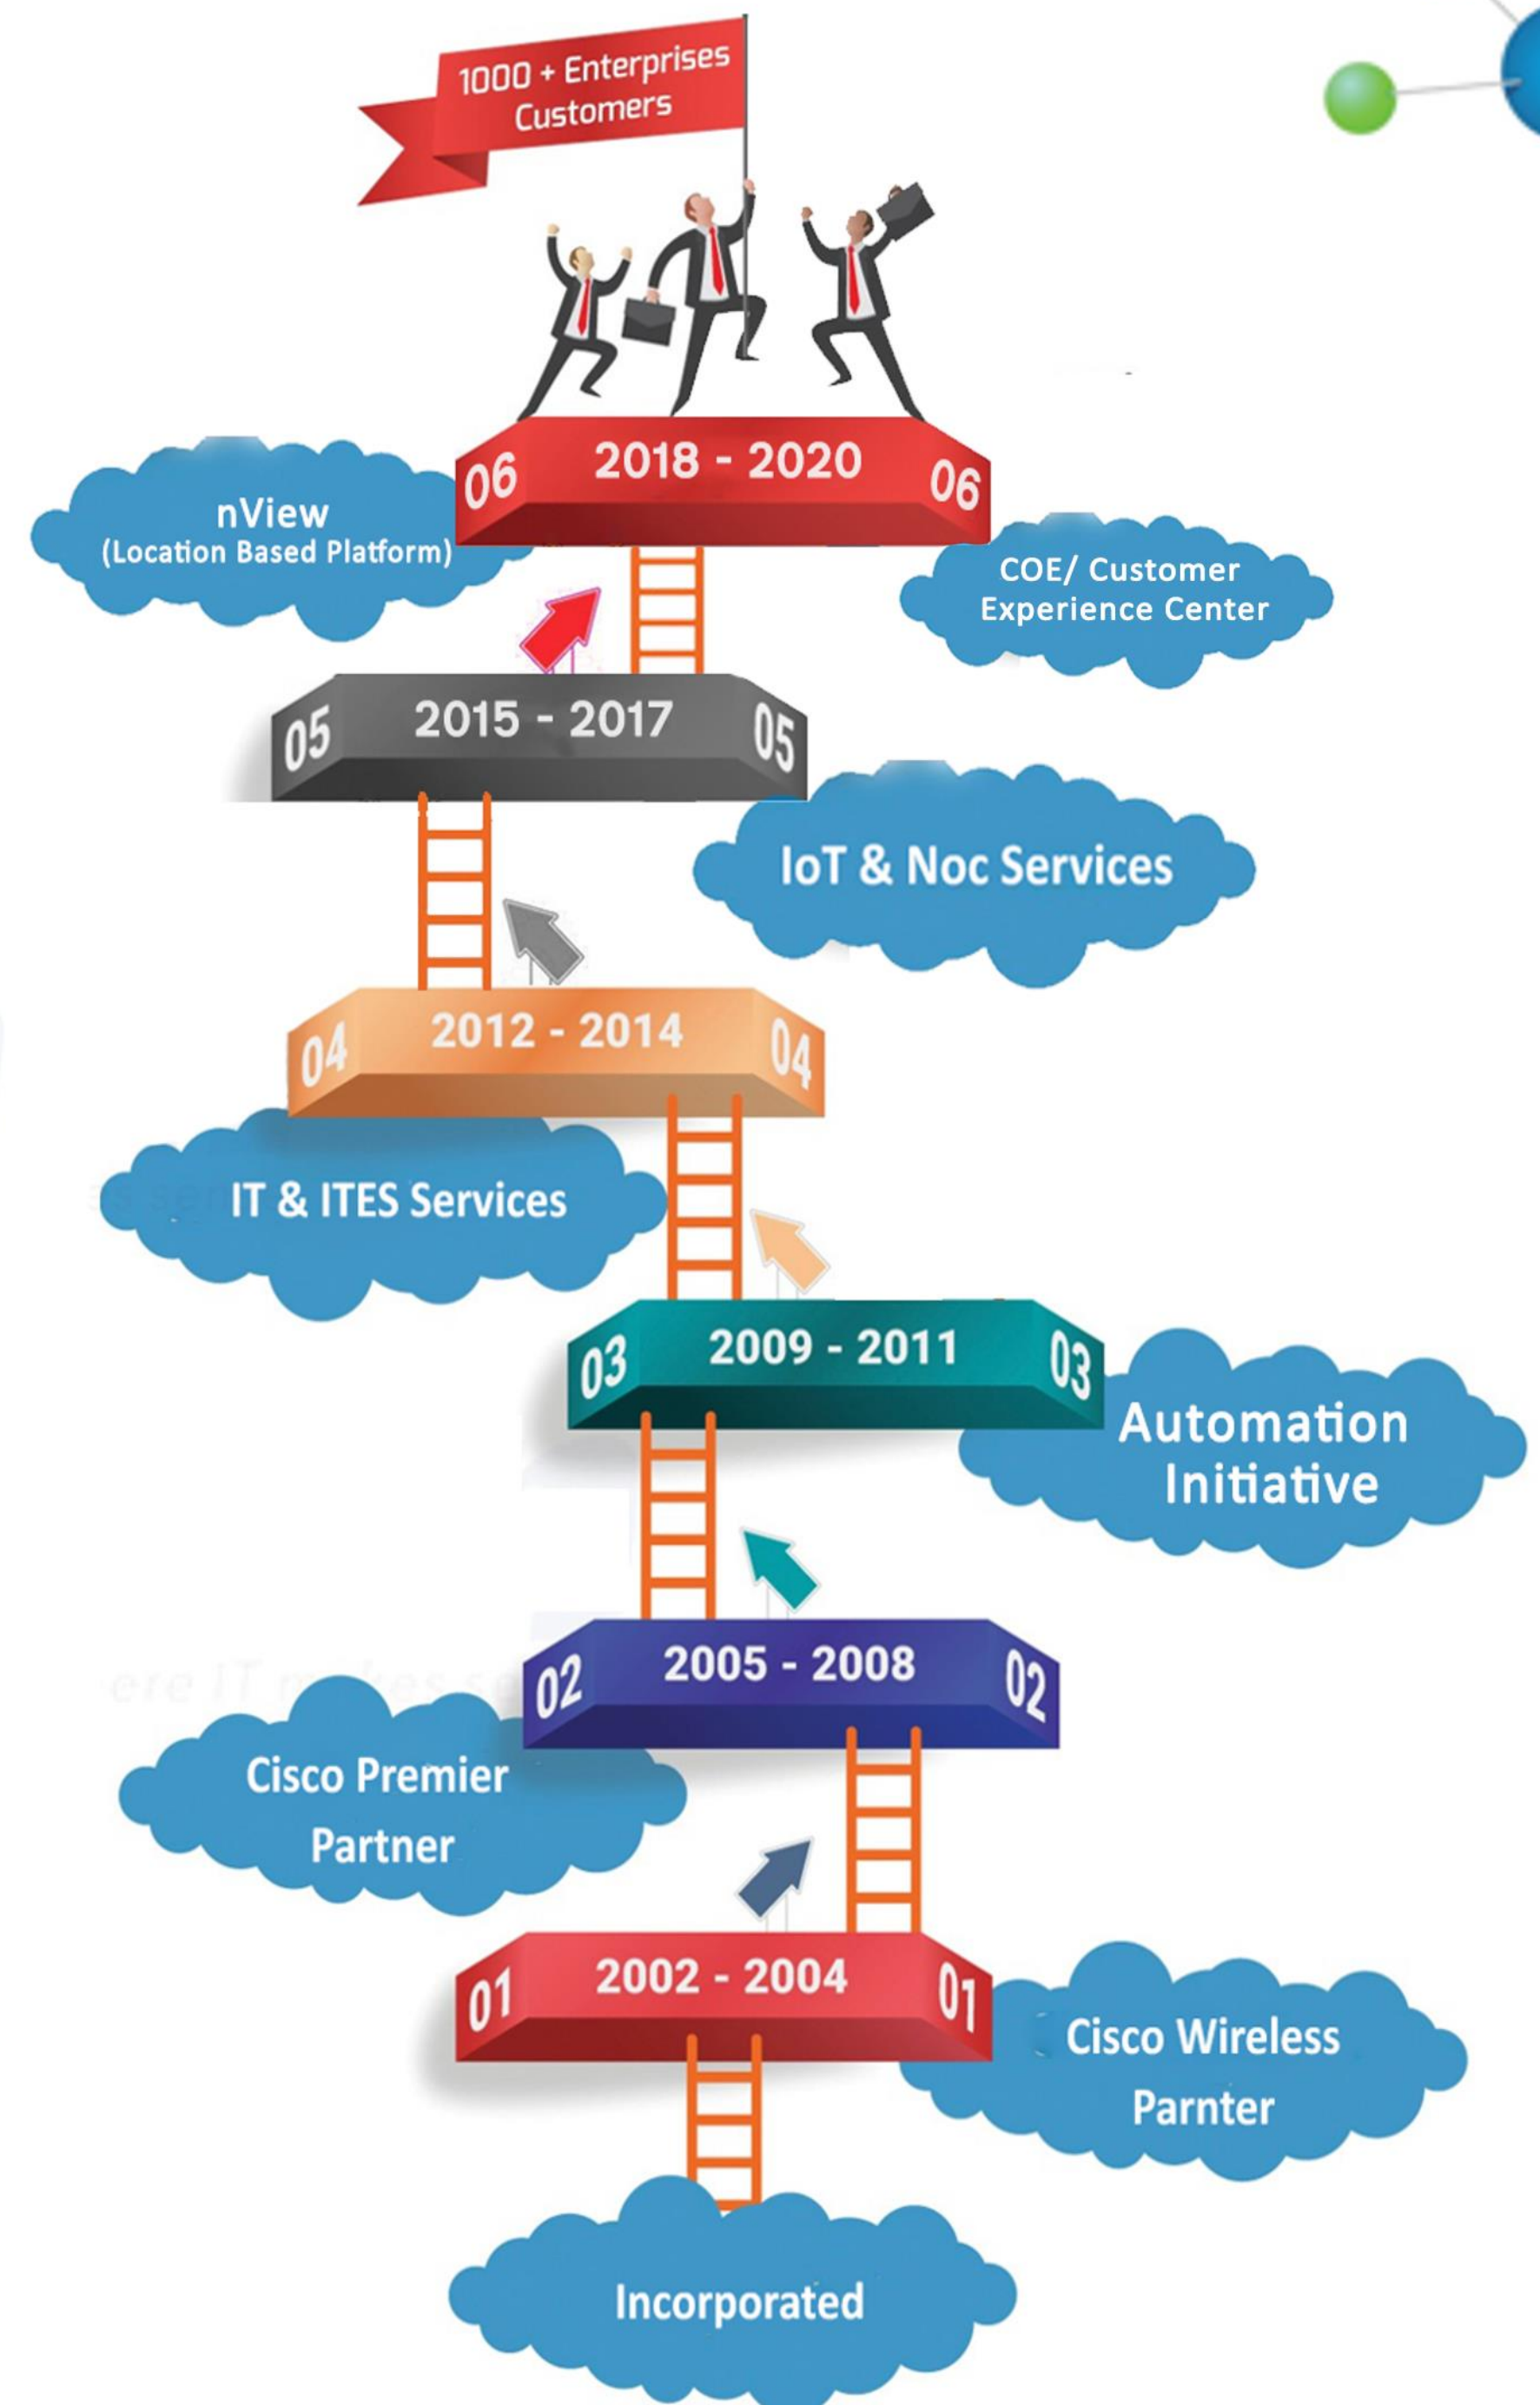

05. 2015 - 2017

- › Banked more than 1000 enterprises customers across verticals
- › Started IoT division and Network Automation
- › Started Network Operations Center (NOC)

06. 2018 - 2020

- › One patent sanctioned and one filed
- › Developed nView platform and ERP applications
- › Won Cisco Partner Innovation Challenge 2020
- › Launched Center of Excellence (CoE) LAB
- › Achieved 135 black belt certifications

Where IT makes sense

OUR Services

01. IT Consultation

- ➔ Network Auditing
- ➔ Network Fine Tuning
- ➔ Network Alignment with business
- ➔ Network design for LAN, WAN, WLAN, Security

02. Network Solutions

- ➔ Routing/Switching/LAN/WAN
- ➔ Wireless LAN
- ➔ Collaboration Services
- ➔ Virtualized Data Services
- ➔ P2P, P2MP
- ➔ Cloud based Services

03. Security

- ➔ Network Security Wired/ Wireless
- ➔ Firewalls, VPN, Security Services
- ➔ Physical Security (IP Surveillance)

04. RFID

- ➔ Asset Tracking
- ➔ Human Safety & Contact Tracking
- ➔ Integration with ERP/Security Systems
- ➔ Emergency Management
- ➔ Customized Health Care Solutions

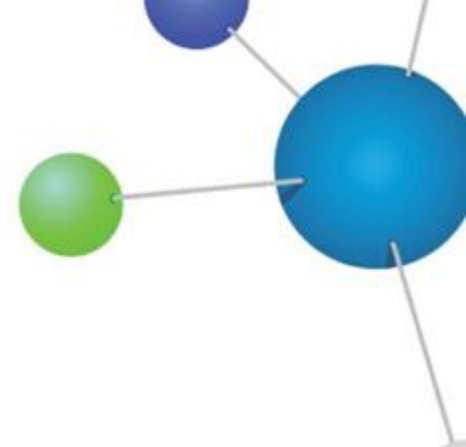

05. Support & Training

- ➔ Facility Management/ AMCs
- ➔ Managed Services
- ➔ CCNA, CCNA- Wireless, CCNP, CCVP etc
- ➔ Customized Training, Academic Training
- ➔ Specialized Corporate Training

06. IT Solutions

- ➔ IoT Based Applications
- ➔ Process Automation
- ➔ Video Analytics (ANPR, Smart Parking, etc)
- ➔ Product Design and Development
- ➔ Mobility Services (Andriod / IOS)
- ➔ Voice Based Solutions
- ➔ nView

OUR Products

Cisco & Meraki

- ✔ Switches
- ✔ Wireless
- ✔ Routers
- ✔ Security
- ✔ UCS
- ✔ Voice & Unified Communication
- ✔ Network Management
- ✔ Tele Presence
- ✔ CNAP Bundle

IoT

- ✔ Driving Pattern Analysis
- ✔ Lighting Sensors & Parking Sensors
- ✔ Street light management
- ✔ Environment Monitoring
- ✔ Battery Health Monitoring
- ✔ Parking Management
- ✔ Locker Management
- ✔ Weather Sensors
- ✔ ANPR

Structured Cabling

- ✔ Commscope
- ✔ Molex
- ✔ D - Link
- ✔ Legrand

NetApp

- ✔ Storage

Axis

- ✔ IP Cameras
- ✔ IP Surveillance Software

Netscout

- ✔ Wifi Analysis
- ✔ Servey Pro

Fortigate & Paloalto

- ✔ UTM & Security

Netbrain

- ✔ Network Automation

Active & Passive RFID

- ✔ Asset Tags
- ✔ Badge/ID Tags
- ✔ Patient Tags
- ✔ RTLS Engine

Kontakt.io

- ✔ BLE Tags
- ✔ Wi-Fi Tags

F5 & Radware

- ✔ Security
- ✔ Load balancer

HP / DXC

- ✔ Servers
- ✔ Switches

DELL

- ✔ Servers
- ✔ Switches
- ✔ Storage

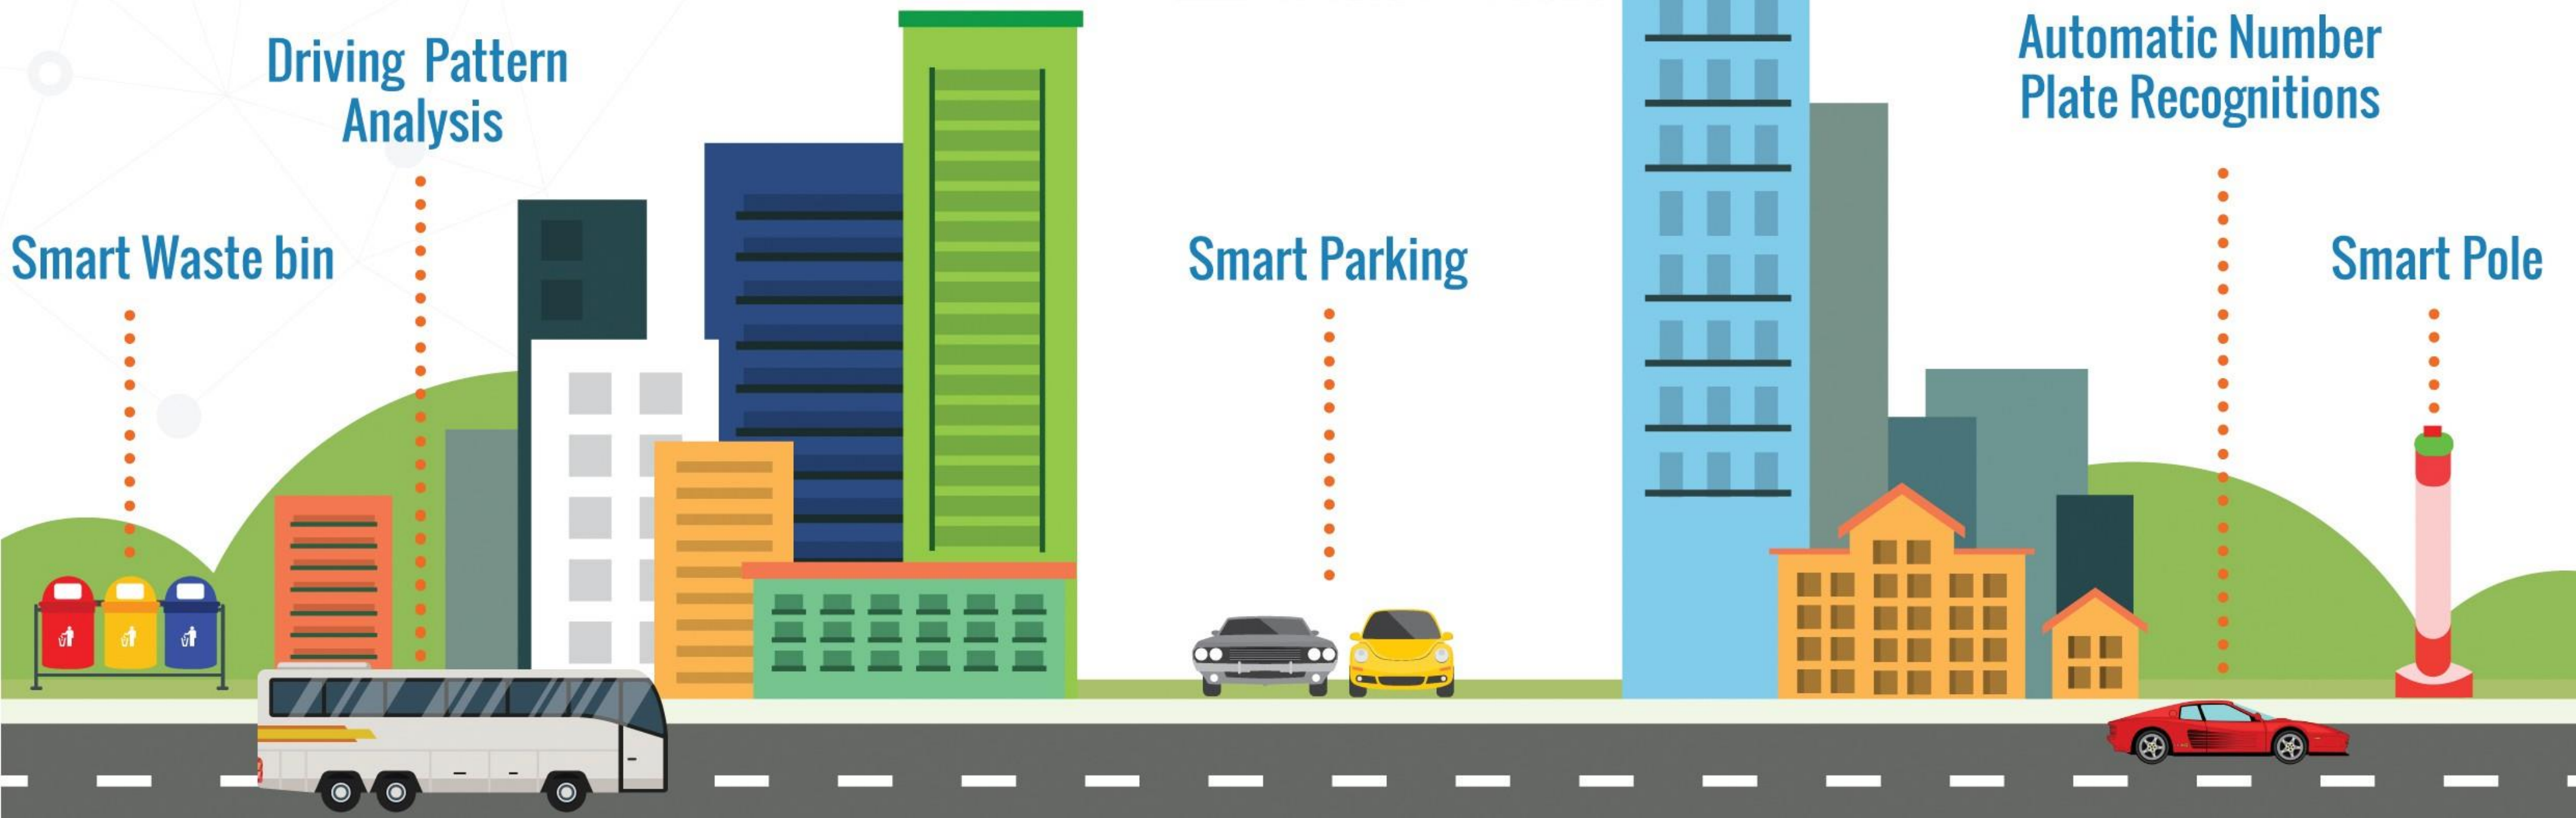

“

Nipun presents an end to end collection of networking and allied products from the most reputed brands to our most reputed clients.

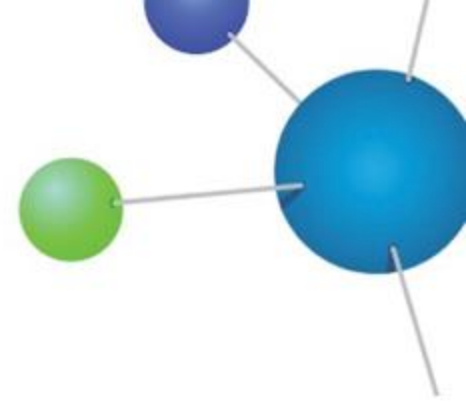

Internet of Things : Our initiatives

-  Driving Pattern Analysis (Patent field)
-  Light Sensors
-  Automatic Number Plate Recognitions
-  SmartPole (Patent field)
-  Smart Waste Bins (In progress)
-  Smart Parking

nipun
Where IT makes

Network Automation

Documentation Reduce Workload 20X

"D.C.U."

Discover Network Intelligently

Discover device, topology and design of network

Create Diagrams Instantly

Reduce from hours to seconds to create a feature-rich diagram

Udate Diagrams Automatically

Say good-bye to out-of-date manual diagrams

Troubleshooting 50% reduction in MTTR

"M-P.H.D."

Map Problem Areas Instantly

Create a dynamic map of problem area

Probe Live Network

Visualize "what's happening" inside a network

Historical Analysis

Analyze "what's changed" across relevant devices

Drill Down with Qapp

Run hundreds of automated diagnosis to discover root cause

Change Assurance Prevent Outages

"C.A.D."

Change Network Automatically

Deliver or rollback a complex change with the push of a button

Analyze Impacts Automatically

Examine the network before and after the changes using CLI output comparison

Document Automatically

Once the change is done, the documentation is done as well

Collaboration Single Source of Data

"3Qs"

Qmaps

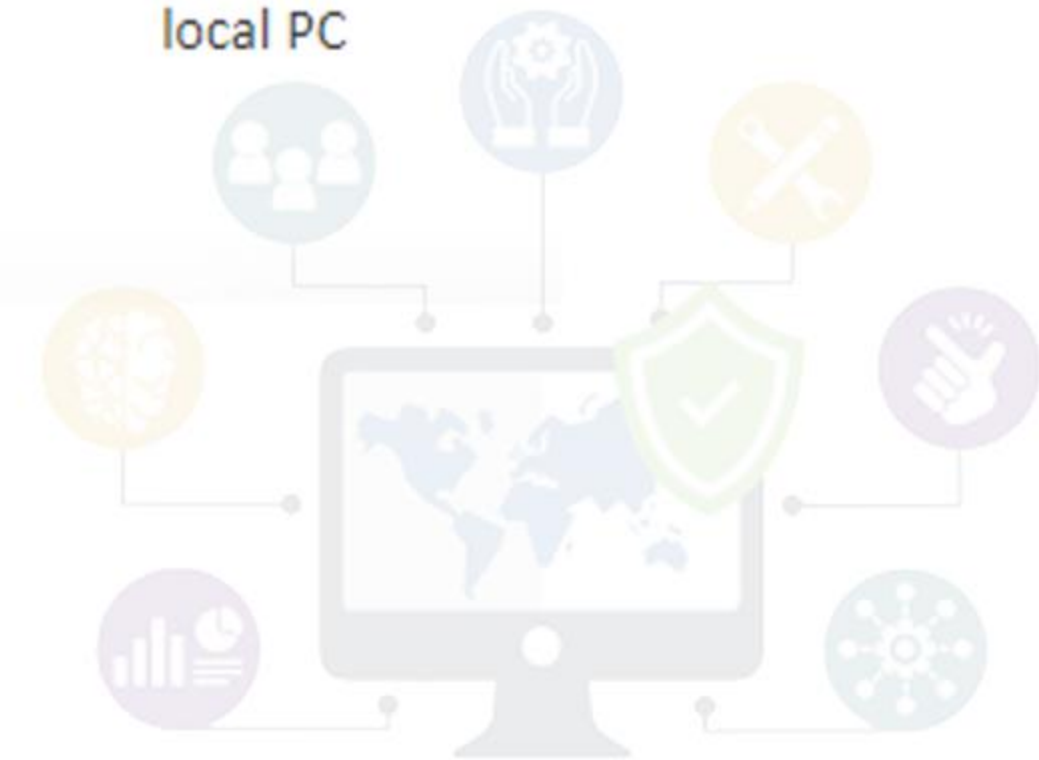

Share network specific knowledge including all probing, historical analysis, and Qapp Drill-down data.

Qapps + Exchange

Automate heavily-lifting of CLI and process. Share how-to knowledge.

Qmap Reader

Share Qmaps with any user, even if they do not have NetBrain installed on their local PC

nView

Keeping in mind all the tragedies happened so far, we have developed this nView application to provide a safer work environment and to avoid the accidents mostly in the manufacturing units. We have also integrated this with Covid-19 Safety Compliance with the below use cases.

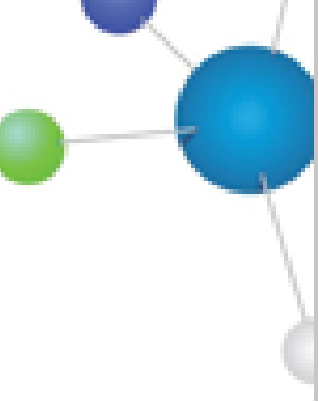

- 1 Automation of Code-Red evacuation procedures - Reducing impact and saving more lives during Code Red emergency evacuation
- 2 Covid-19 safety compliance (Physical distancing, Contact tracing, Temperature monitoring, Facemask compliance, Sanitization compliance, Density management)
- 3 Tracking and enhancing productivity
- 4 People and Asset Management
- 5 Location based rules
- 6 Guest Management
- 7 Camera based tracking and analytics

Cisco has recognized our efforts on this and we have won 1st place at 2020 Cisco Partner Innovation Challenge India (APJC) and has been selected for Cisco's Global Innovation Challenge at Partner Summit Digital.

nView: Business Process Automation

nView: Overall Use cases

Auto Tag (De)-Allocation

Covid-19 Compliance

Productivity Monitoring

Access Control/Management

Safety/Fire Drill, Code Red Evacuation

FR based Location management/analytics

Visitor Management Tracking

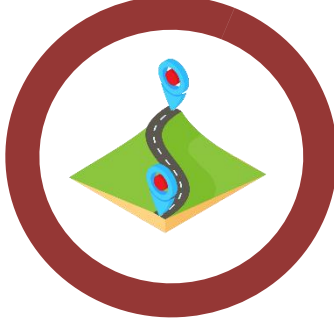

Attendance Tracking

Real Time Alerts management (SMS/Email)

Resource Management
(conference Room, Flexi Desk etc.)

2D/3D Map Support

Guided Navigation/Path profile
